PROFILE

I'm a 3rd-year Software Development student at Norton University with a strong interest in mobile app development. I have experience in technical support and computer hardware services, which has helped me build problem-solving and communication skills. I'm passionate about learning new technologies, a fast learner, and always eager to apply my knowledge and creativity to develop innovative mobile applications.

WORK EXPERIENCE

GTC Computer

13/FEB/2025 - PRESENT

IT Support

- Provide technical support and troubleshooting for laptops, desktops, and related computer components.
- Offer remote assistance to customers to diagnose and resolve software and hardware issues.
- Assist customers in both Khmer and English, explaining product specifications and helping them choose suitable devices.
- Manage online chats and respond to customer inquiries regarding product sales and technical support.
- Perform hardware maintenance and repair services for computers.

PROGRAMMING SKILLS

- **Programming Languages:** Dart, Java , C++ (OOP).
- **Frameworks:** Flutter
- **Database:** SQL (basic queries)
- **Version Control:** Git and GitHub
- **Operating Systems:** Windows, Linux (Ubuntu)
- **Flutter Task App** - A simple mobile app for managing daily tasks using Flutter and local database (SQLite). (In Progress)

EDUCATION

Bachelor of Software Development

Faculty of Science | **Norton University**
2023 - Present (3rd Year Student)
